

**JOURNAL**

**OFFICE OF LEGISLATIVE COUNSEL**

**Tuesday - 30 October 1962**

- 25X1 1. [ ] (WH Division) telephoned to advise that he had talked with Congresswoman Frances Bolton and had been able to answer her various questions. See Journal entry of 29 October 1962.
- 25X1 2. [ ] Met with Kenneth Sprankle and Robert Michaels (House Appropriations Committee staff) and secured the itinerary for Representative Gerald Ford for his trip to the Far East beginning 23 November. Ford had requested that necessary arrangements be made so that he and Michaels, who is travelling with him, could meet with CIA people in the various areas. It was agreed that we would provide appropriate cable notification to the Field stations who would take the initiative to contact Ford at each place and then if there were time he would receive appropriate briefings. Invitations were extended to Sprankle and Michaels to visit the Agency this Friday at eleven o'clock to meet with some of our new budget people and in addition to receive necessary clearances for special projects.
- 25X1 3. [ ] Talked with Robert Smart, House Armed Services Committee staff, to secure his views on the possibility of the Committee considering next year our early retirement bill in the short form. At first it was his view that the short form was simply not palatable but after discussion he agreed it would probably do no harm to discuss this with Porter Hardy who voiced the strongest objections to the short form.

**JOHN S. WARNER**  
Legislative Counsel
